

Course #520

How to Comply with CARB Diesel Regulations

The California Air Resources Board (CARB) enforces air pollution regulations that affect a variety of diesel vehicles and equipment operating in the State. Truck owners and operators, as well as brokers, dispatchers, and fleet managers are responsible for complying with these regulations.

This course reviews the inspection process, discusses the consequences of non-compliance, and explains **how to comply** with the following programs/regulations:

- Heavy-Duty Diesel Vehicle Inspection Program
- Periodic Smoke Inspection Program
- Truck and Bus Regulation
- Diesel Exhaust Filters

Based on attendee interest, the following regulations may be covered:

- Off Road Equipment
- Public Agency and Utility
- Transport Refrigeration Units
- Drayage/Port Trucks
- 53' or longer box-type trailers and tractors that pull them

October 17, 2013

9:00 am – 12:30 pm
